

## Certified Data Centre Design Professional - CDCDP™

This 7 day program consists of 2 units that teach best practice principles for the design, construction and operation of Data Centres. The different units each address specific areas such as physical infrastructure, electrical power supply, air conditioning and cabling within a data centre.

### The units are:

- CDCDP™ **Core Unit** - 3 days
- CDCDP™ **Advanced Professional Unit** - 4 Days

The units can be taken together or separately, allowing you to complete study at a convenient pace and time for you.

You must have completed and passed the CDCDP™ Core Unit before attending the CDCDP™ Advanced Professional Unit.

On successful completion of both units you will gain a BTEC level 5 Advanced Professional Award in Certified Data Centre Design.

See page 28 for award equivalences and career progression.
